(B) LMSD ltr. to ARBMD, Same Subject, Dtd. 5 May 1958, (LMSD/56665)

1. As a result of a conference (Reference A), LMSD advised BMO (Reference B) that the Contractor would establish its position relative to the acceptance of vehicles and where they desire such acceptance to performed by the Government.

2. The Contractor herein proposes that the Government accept:

a. The first flight vehicle at the Santa Cruz Test Facility upon completion of "hot firing" tests at said facility.

b. Subsequent vehicles without significant changes to the propulsion system, at Contractor's Palo Alto Facility following in-plant checkout.

3. Your prompt review and concurrence regarding this matter will be appreciated.
